50X1-HUM

5.	On 23 February, 53 crates, each containing 8 machine guns, model 81, and 8 spare barrels (caliber 7.9 mm, category 2) were packed after the grease bath treatment. In addition, 150 storage cases (81) (Bezeichnung F1 203 450) were completed, 50 of them partly filled with spares.	50X1-HUM
6.	A steady stream of	50X1-HUM
7.		. !
5 .	The ten people employed in the pistol room daily service some 300 Walther 7.65 mm pistols. Although these pistols are in need of repair, nothing is done apart from giving them an oil bath treatment, packing them in cases, and storing them in the storeroom.	I a
9.	Arms are graded in the following categories:	- 8 G- 1-14
	a. Category 1 - new weapons ready for use and barrel in perfect condition.	· (125)
	b. Category 2 - badly rusted with rust scars and over 10,000 rounds fired through the barrel.	* Ababatan
	c. Category 3 - parts missing or barrel badly distorted.	-
10.	Arms are collected in dumps at the following points:	- August St.
	Brandenburg Zerbst	
	Furstenualde Neu-Brandenburg	vie takkowa v
	Wittenberg Köthen	sk eine v
	These are collection points for captured weapons, for which Brandenburg is the main collection center. At the head of this center is a general (name unknown) who is in the SNA at Karlshorst and frequently rakes inspections.	-shortest and a 2
	Ontical Horkshops	ë F
11.	This workshop, measuring 40 by 70 meters, contains about ten bays. Besides being a workshop, it also stores optical instruments for all infantry, luftwaffe (including antiaircraft) and Ari (sic) weapons captured from the Germans. Range finders are estimated to be about 60 in number. Large, but uncounted, quantities of field glasses of all types, lenses, gun sights, and directors are in storage. Instruments are overhauled and repaired and passed by a Russian specialist dressed as a common soldier. Instruments and lenses	about Brokesskask hamma a nock (in annagame
